**One of the basic principle of raising a happy and a healthy baby is proper nutrition. Good habits should be introduced from very beginning. This will make your child eat healthy and in appropriate amounts.**

Feeding children, until their first birthday has always raised many doubts.

Many mothers often ask the following questions:

- How to recognize that a child is ready to extend their diet?
- What is allowed for a baby to drink and what is not?
- What products are the strongest allergens?

The author has collected the most important information about infants' and toddlers' feeding in particular months of life. Recipes for delicious dishes will help prepare varied meals for every child.
